

International Journal of Structural and Civil Engineering Research

CONTENTS

Volume 4, Number 3, August 2015

Structure Engineering

- Seismic Fragility Based Optimum Design of LRB for Isolated Continuous Girder Bridge231
X. H. Long, J. Fan, F. F. Nie, and Y. T. Zhang
- Effects of Soil-Structure Interaction on the Seismic Response of Base Isolated in High-Rise Buildings237
Farzad Hatami, Hamed Nademi, and Mohammad Rahaie
- Optimum Design of Lead-Rubber Bearing System under the Non-Stationary Random Earthquake Ground Motion
.....243
J. Fan, X. H. Long, and L. Li
- Numerical Modelling & Design of Unreinforced Construction Joint for Reinforced Concrete Substructures with
Concrete Shrinkage & Creep248
Raymond W. M. Lo and Yunita Dian Pratiwi
- A Study on Shear Connectors of Square Concrete Filled Steel Tubes254
Qiyun Qiao, Xudong Zhang, and Jianhua Hu
- Experimental Study on Prestress Loss of Short Tendons Applied in the Cable-Stayed Bridge PC Pylon259
Nannan Cui, Xiaolin Yu, Buyu Jia, Jintu Zhong, and Quansheng Yan

Construction Material

- Mesoscale Analysis of Size Effect on Mechanical Properties of Concrete265
Muttaqin Hasan and Sri Indah Setiyaningsih
- Effect of Sulphate on Compressive Strength of Cement Stabilized Soil271
Zhanguo Li, Wei Guo, Yue Li, Jinpeng Liu, and Yanbing Wang
- Developing a Pay Adjustment Technique for Flexible Pavement Highways Projects276
Alaa M. Ali
- Method of Vacuum Water Absorption to Determine the Porosity of Hardened Concrete282
Yue Li, Wanguo Dong, Hong Li, and Zhanguo Li
- Improved Strength Model of FRP-Confined Concrete in Rectangular Columns287
Lin Li, Jian Fan, Yicheng Jiang, and Yaoting Zhang
- Study on the Rheological Properties of Fresh Mortar under Vibration291
Takuya Saito, Yusuke Fujikura, Shin-ichiro Hashimoto, and Shigeyuki Date

Hydrology

- Development of Mobile Water Treatment Package System for Emergency Water Supply296
Young Kyu Park, Ju-Suk An, Jiyoung Park, and Hyun Je Oh
