

International Journal of Structural and Civil Engineering Research

CONTENTS

Volume 5, Number 3, August 2016

Concrete Structure Design

Development and Optimization of Artificial Intelligence-Based Concrete Compressive Strength Predictive Models 156

Nasir B. Siraj, Aminah Robinson Fayek, and Abraham A. Tsehayae

Proposal of a New Structural Member Using a Recently Developed High Strength Material 168

Kazuhiro Hayashi, Ryosuke Nishi, and Hiroyuki Inamasu

Assessment of Seismic Retrofitting Techniques of RC Structures Using Fragility Curves 175

Yasser E. Ibrahim Mansour

Parametric Regression Model and ANN (Artificial Neural Network) Approach in Predicting Concrete Compressive Strength by SonReb Method 183

Lucio Nobile and Mario Bonagura

Assessment on the Usage of Insulated Concrete Forms in United Arab Emirates Construction Industry 187

Syed W. Ather, Saud AbdelAziz, Ibrahim A. Salloum, Abdullah N. Marzouk, and Sameh M. El-Sayegh

In-Situ Test Research of Restraint Reinforced Cement-Soil Pile 192

X. Q. Wang, Y. L. Cui, and S. M. Zhang

Construction Materials

Study on the Microstructure and Load Bearing Properties of Granular Material 196

Mohammad Alam, Gao Zheng Guo, and Li Zhichang

Hydrogeological Survey

Riverbank Landslides and the Probability Analysis of Landslide Dams 201

Chien-Yuan Chen and Wei-Ting Lee

Study Added of Waste Chicken Egg Shell in Soils 207

Irwan Lie Keng Wong

Road and Bridge Engineering

Analysis of Evaluation Indicators for Service Performance of Roads/Bridges 212

Kyonghoon Kim and Taeil Park

A Big Data Approach for Decision Making in Bridge Maintenance 216

Yu-Han Chuang and Nie-Jia Yau

Seismic Response of High Pier Continuous Rigid Bridge Subjected to Multiple Support Excitation 223

Zhiwei Chen, Qianhui Pu, Hongyu Jia, Xi-Li, and Lanping-Li

Housing Design and Construction

- Effects of the Building Code on Construction and Design of Hong Kong Residential Buildings in the Colony228
Wong Wah Sang
- Pushover Analysis for Seismic Evaluation of Masonry Wall235
Amit Sharma and Rakesh Khare
- Feasibility Study on the Promotion and Application of Straw Bale House in Northern Rural Areas in China241
Xiaoming A. Li
- Raw Concepts of Sustainability in Vernacular Dwellings—A Case Study of Kangbaiwan Mansion in China.....246
Xiaoqing A. Song and Bin B. Su
